

SHIVANSI RUBBER

The Polymer Fabricators

INTRODUCTION

SHIVANSI RUBBER is a pioneer & leader in the speciality belting industry as well as rubber & sponge rollers for various applications and industries. We have excelled in the manufacturing, fabrication & distribution of our unique products, serving the domestic and international markets. We enjoy a tremendous reputation for the diversity of our products, unparalleled capabilities, customer assistance & design support, quality products & endless innovation

SHIVANSI RUBBER has appeared as one of the trusted manufacturer, exporter and supplier of a wide range of Rubber Rollers & Industrial rubber belts . These products are formulated using finest-quality material in order to offer patrons optimal quality products. Our dexterous personnel work in close harmonization with the patrons to understand their demands and necessities. The raw material is acquired from one of the specialized vendors of the industry. Along with this, our offered products are highly valued in the industry for their precise construction and durable nature. In addition to this, in order to deliver only quality assured products at patron premise, we reviewed them on numerous predefined quality constraints. We are catering to a wide range of industries such as **pharmaceutical, packaging, distillery, cosmetics, food, welding, electrodes, printing, plastic and agriculture.**

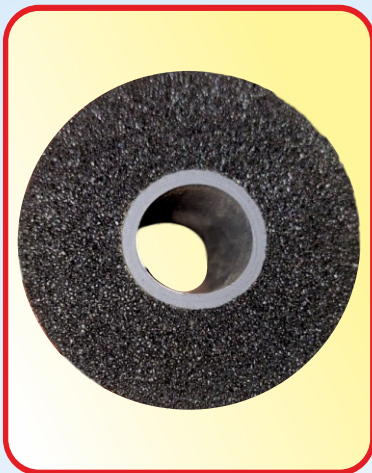

Orange Cellular Sponge Rubber Roller

**Range :**

Available in various length, diameter & density
Outer diameter (\emptyset): 25mm to 150mm & length
(L): 25 mm to 300 mm.

Black Cellular Sponge Rubber Roller

**Range :**

Available in various length, diameter & varying density from
30 mm diameter to 120 mm & length from 30 mm to 200 mm

White Cellular Sponge Rubber Roller (Very Soft)

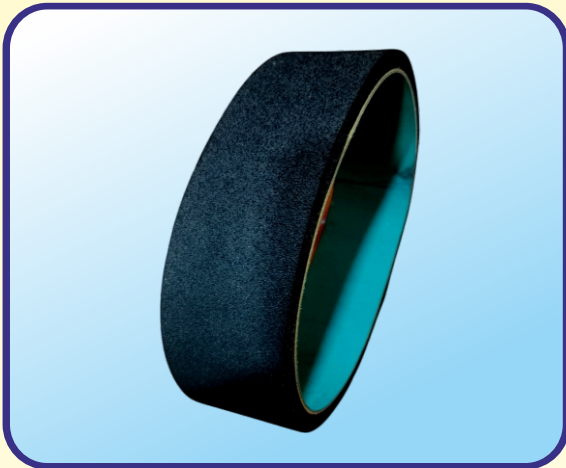

White cellular foam rubber roller (very soft)
is available in polyether polyuthane with
density to 33 kg/m^3

White cellular foam roller is available in
maximum length & diameter up to 250 mm

Sponge Belts For Automatic Bottle Sticker Labelling Machine

Canvas Impregnated Sponge Belt For Bottle Vial & Ampoule Labelling Machine

Application

For Sticker Labelling Of Round Bottles,
Flat Bottles, Vials, Ampoules &
Irregular Shape Bottles For Pharmaceuticals,
Distillery, Cosmetics
& All Types Of Labelling
Industries

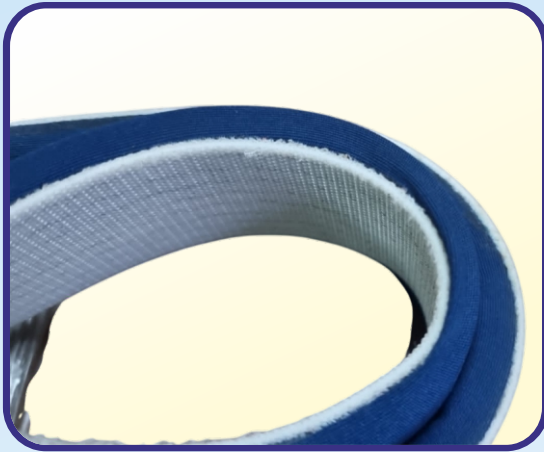

Back Plate Sponge Pad for Labelling Machine

(Available in various sizes thickness & density

Glue Rubber Roller

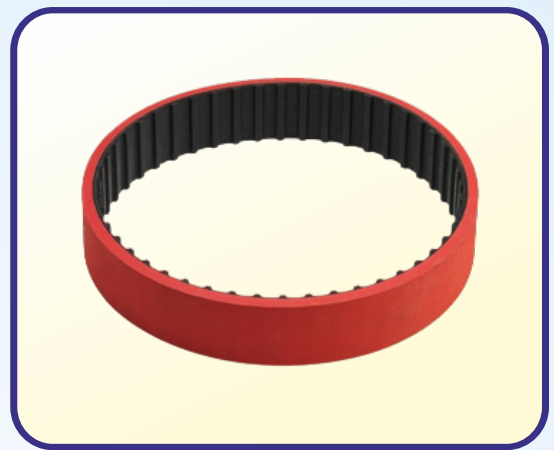

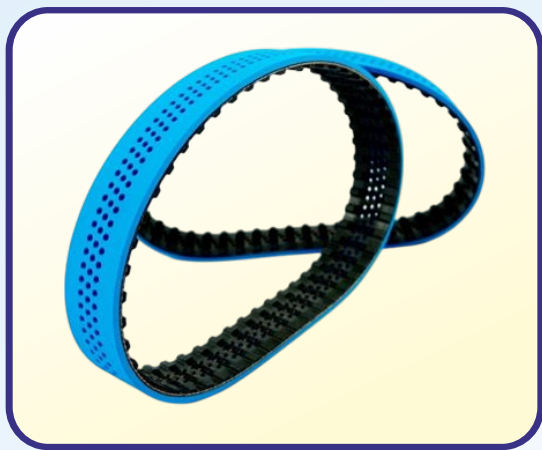

Fabric Coated Cellular Sponge Flat & Timing Belt Of Various Lengths & Thickness

Application

In labelling industries Where shredding of Particles are restricted

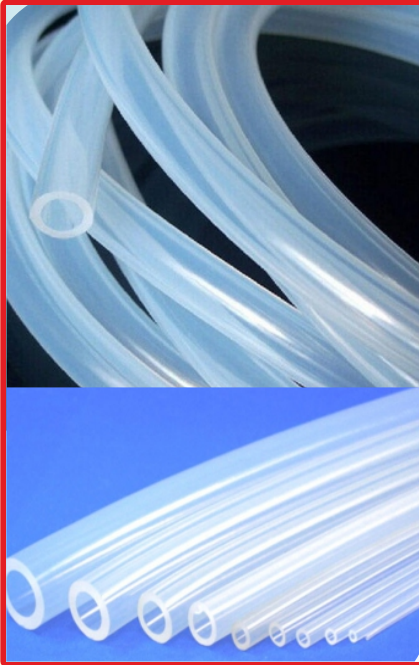

Rubber Coated Flat & Timing Belts

Application

Rubber coated toothed belt with high adherence, robust and low wear for film dragging in vertical packaging machines. Also known as perforated coated timing belts, these belts are widely used on packaging machines. Our tow straps or bands are widely recognized for their characteristics such as flexibility, superior strength and light weight.

Silicone Rubber Tubing

Silicone Transparent Tube

Color	: Transparent
Material	: Medical grade Silicone Rubber
Temperature resistance	: From - 80 to 250 degree C [-110 to 480 degree F]
Size range	: From 0.3mm ID to 125mmID

Product Specification

The range of Silicone Transparent Tubes which we offer to the customers is inclusive of a superior range of Silicone Rubber which have been made in order to give an efficient performance even in high temperature. Our products have been made using the best quality of raw materials and our products have been priced at very reasonable rates in the industry. These products are made using the latest technology and they are available in a range of sizes for various applications.

Product Specification

Owing to our advanced manufacturing facilities, we have been able to offer a flawless range of Silicone Polyester Braided Hose. Made using platinum or peroxide cured silicone, these hoses are known for their resistance to chemicals and solvents. We make use of high-grade material to manufacture these hoses. These products are manufactured in compliance with the international quality standards to ensure reliable usage.

Features:

- Can withstand high Pressure
- Can withstand high temperature
- Food grade application

Silicone Extruded Gasket For Door & Machinery

Color	: Any Color
Usage/Application	: Oven doors/Window Frames and other purpose
Material	: Silicone Rubber
Thickness	: As per requirement
Brand	: Perfect Tools
Size	: As per customer requirement

Product Specification

Perfect Tools manufactures more than 800 different shapes and design, few are G type, B type, P type, D type, E type, T type and many more
